TANYA CAMBURN: AWARD-WINNING FILMMAKER TO AI ETHICS PIONEER

"I spent my career mastering the power of narrative. Now, I'm using that expertise to ensure AI doesn't rewrite the truth."

The INTERNATIONAL
HUMAN-ENVIRONMENT
CARE FILM FESTIVAL

THE LISTENING SEA

CREATED BY TANYA CAMBURN

"For years, my work as a filmmaker has been about the power of the lens—how a single story can change a perspective, move a crowd, or define a reality. But we have entered an era where that power is being weaponized. Generative AI and voice-cloning technology have made it possible to manufacture 'truth' with terrifying precision, leaving our most vulnerable citizens—our seniors, our children, and our families—exposed to a new breed of invisible exploitation.

I founded the Human Reclassified Foundation because I realized that technical firewalls aren't enough to protect us. We need a Human-in-the-Loop defense.

By merging the art of immersive storytelling with rigorous technical protocols like our Guardian Protocol, we are giving people the tools to reclaim their digital agency. We aren't just teaching people to spot a scam; we are building a civic infrastructure of trust. Whether through our gamified 'AI Detective' curriculum in Norwalk or our real-time detection tools powered by the Gemini API, our mission is clear:

We ensure that technology serves humanity, not the other way around.

As an organization, we stand on the pillars of radical transparency and community-led innovation. We invite you to join us in securing the digital frontier—one human connection at a time."

THE GUARDIAN PROTOCOL: A HUMAN-IN-THE- LOOP DEFENSE

HUMAN RECLASSIFIED
GUARDIAN PROTOCOL

Emergency Steps Completed

You've taken the critical first steps to secure your identity. Guardian Pro members can now generate official report files.

- BANK SCRIPTS
- FTC REPORT
- LEGAL FORMS

HUMAN RECLASSIFIED
GUARDIAN PROTOCOL

- REAL-TIME PROTECTION**
Auto-flags data breaches, area-specific scams, and brand impersonation in real-time.
- PERSONAL RISK SHIELD**
Private learning engine builds a custom risk score and personalized targeting profile.
- FORENSIC INVESTIGATION**
Deep psychological breakdown, origin tracing, and reverse image search on scammers.
- EMERGENCY RESPONSE (SOS)**
Step-by-step recovery wizard, bank dispute scripts, and credit freeze assistance.
- FAMILY GUARDIAN MODE**

AI SCAMS EXPOSED

LOW
SECURITY PROTOCOL
WARNING

These messages appear to be legitimate automated notifications from a school district.

THREAT SCORE
02
INDEX 0-100

- **Psychological Triggers**
 - ▷ Direct informational tone
 - ▷ Consistent identification of the organization (NLMUSD)
 - ▷ Standard school-related terminology
 - ▷ Lack of suspicious links or requests for data
- **Structural Red Flags**
 - ▷ None

HUMAN RECLASSIFIED
GUARDIAN PROTOCOL

Defense Education

"Mass notification systems used by school districts often utilize SMS short codes (like 67587) to send schedule reminders, early dismissal alerts, and holiday notices. These messages are considered safe because they do not ask for personal information, do not contain suspicious links, and provide specific, relevant information about school operations."

COUNTER-MEASURE INSTRUCTION

No action is required. If you do not have a child attending a school in the Norwalk-La Mirada Unified School District, you may have inherited this number from a previous owner, and you can simply ignore the messages or contact the district to be removed from their list.

PROTECTING THE CIVIC TRUST

Gamified Education:

"Guardians of truth, rebels against manipulation"
